

Fast4wrd

It feels like I'm in a film that's been placed in a DVD player and someone's pressing the fast forward button. They have the remote and I have no control...

4 September – 22 November 2008
Hackney Museum

A **deep:black** exhibition to celebrate London Week of Peace 2008

Fast 4wrd is **deep:black**'s creative journey through the changes that Hackney is currently experiencing as part of its major redevelopment.

In a summer workshop a group of local residents captured 'change' in photo, sound and film.

Come and join us on the journey and see and hear what change means for them – and tell us what it means for you!
